LA TEXEDORA DE VIENTU

La Texedora de Vientu is a newly constructed Village House situated in the town of Bayas (Asturias).

It mixes popular Asturian architecture with a nod to an Indiana House (a Spanish-American style). The house's wide windows allow in wonderful natural brightness and magnificent views of the picturesque town of Bayas along with the entire Asturian coast from Cape Vidio to Cape Peñas.

The house has all the services in the communal areas (living room, porches and games zone) that favour the pleasant coexistence among all our guests. It also incorporates some technology that promotes the sustainable development.

It also has six bedrooms, all of them with its own private bathroom. One bedroom is located on the ground floor (wheelchair accessible), and another one in the attic (for up to six people).
